President's Message

We blinked and July has come and gone. Summer is halfway over, but August is a prime month for fun in the sun.

Our car show chair, Charlene Rivera, and her team are furiously pulling together last minute details and putting on final touches for our annual car show. As most of you know, this year we are holding our show at Griot's and it should be a great time. I hope all of you were able to pre-registered so you get one of our goody bags filled with surprises.

We've made a change in the way our newsletter editor obtains articles for the monthly newsletter. We decided it was time for the club to obtain a dedicated email address expressly for the use of our newsletter editor. So now when you want to send something to the editor you don't have to go searching for (continued)

As always, we want to give credit where credit is due. It was brought to our attention that in a recent club newsletter, December 2013, a graphic was inadvertently used without giving proper credit to the artist. On page 11 of the Pony News, a graphic of a Mustang was used without crediting the artist, Del Swanson. We thank Del Swanson for granting permission to utilize his artwork in our newsletter. Del's work can be found on his website at <http://delswanson.com/>.

Tip of the Month

Most of us put sun screen on at the beginning of a car show, but how many of us reapply BEFORE the burn sets in or worse? While watching the local news a few weeks ago they did a bit on a local guy wanting to help others escape skin cancer. He came up with an App that automatically monitors your exposure to UV according to your location, elevation, and time spent outdoors. All you have to do is check the timer on the screen to know when to seek shade or reapply sunscreen. You even build a custom avatar that knows your skin type. Check it out. Brightly is the App.

Mustang of the Month

Congratulations—Michael and Lynda Rasmussen

Lynda and I had our first blue over gray Mustang GT in 1989. Had it for a few years then decided it was a bit small for our family needs so off it went for a bigger family car. Years passed then I got interested in the 2003 Mustang Cobra. Of course my want was

bigger than my wallet so my dream of having another high performance car vanished. Then in 2004 I walked in to Parr Ford and there sat a 2004 Mystichrome Cobra. I had no idea at the time that this car even existed. I must of walked around that car a dozen times. Next morning it was in the garage. Only later did I find out it was a limited production car of 510 and that the generation 4 car would never be made again. Few years later I went to the dark side and pumped up the horse power with a bolt on Whipple supercharger. Yeepee 585 rear wheel HP getting 19.5 MPG. Fast forward to 2014. Found out from talking to folks that the Shelby Cobra generation 5 would no longer be made with the 5.8 liter 662 HP engine and body style. When I found the Ruby Red online I showed it to Lynda and it became her car. Seems Lynda now owns the big dog in the garage. Is there a Whipple in the future for the Shelby? Only my wallet knows.

Michael & Lynda

Congratulations Ken Coatney, Sr
and
His 2005 Red Coupe

Congratulations to Ken for having his car selected for the 2015 Calendar for RATEMYRIDEZ.COM—"The Nitmare Before Christmas."

"I don't know how many entries nation wide but they showcased 30 entries... 1 for each day... judges narrowed it down to 12 from there. They did the showcase art with the pics I submitted along with an interview. "

Ken

Well done!
