**T**hank you to everyone that brought in spaghetti noodles and sauce. The club collected 181 pounds of noodles and 169 pounds of sauce. The Pepsi Guys wanted me to pass on their heartfelt thanks. In the spirit of service to others the club also volunteered a Saturday morning at the Emergency Food Network. The group repacked almost 5K pounds of dry soup fixings. I also want to say thank you to Charlene for the wonderful Fall cruise. The apple fritters at Lattin's Country Cider Mill and Farm never disappoint and what a sight it was seeing all of our beautiful cars lined up at the capitol building.

11 Nov is our Veterans' day cruise. Jerry Murphy has put together a very fun and informative cruise, see the flyer in the newsletter or on the Club website.

17 Nov Friday Night Dinner out is at Bonney Lake Buttered Biscuit.

We have been talking about this for the last couple of months and it is now "Club Election Time" You will find a ballot sheet in this newsletter. Each membership family gets one vote and there are several ways to cast your vote.

1. The best way to be sure your vote is counted is to come to the club meeting on Tuesday, November 21st at 6:30pm (Korum Ford conference room).
2. The next best way is to mail your ballot to the address on the ballot. Mailed ballots must be received by Monday, November 20<sup>th</sup> to be counted.
3. You can give your ballot to someone who is coming to the meeting.
4. Another option is to email your vote to Nancy at [pnredride@msn.com](mailto:pnredride@msn.com)

Hope to see a huge crowd at the meeting.

Hope to see you all soon,

*Greg Robbins*

## Mustang of the Month

John Gruver

1970 Red Mach 1

My car has been in a shop in Seattle for the past 18 months; I dropped it off there just a few days after I bought the car in late April of 2016. It was supposed to be done tomorrow [October 29], but once again the delivery has been delayed by a slow parts order.

As for my love of Mustangs, my mom bought a new Mustang in 1966 and I fell in love with Mustangs right away. I learned to drive in that car and when it came time for me to buy my first car, it was a 1964 ½ Mustang. That was in 1975.

I always talked of getting another Mustang, but with a family and the need to own a work vehicle, the time for another Mustang was continually put off for many years. My wife, Patty, passed away from ovarian cancer in January of 2016. At Christmas she had given me a card with a Mustang on the front and on the inside she wrote for me to sell her car and get the Mustang I always wanted. So that spring I started shopping around for a 1969 or 1970 Mach 1, my favorite style Mustang. I found a 1970 Mach 1 with a 351 Cleveland that I really liked in April and bought it.

My new Mustang did have some issues (to say the least) so I immediately dropped it off at a shop near my office for upgraded brakes, suspension, and steering. One thing lead to another as things usually

do with a 47 year old car and after an expanded project list that included new wiring, transmission, an engine rebuild, relocating the battery to the trunk, a fair amount of new sheet metal, and a list way too long for this story, its finally ready to leave the shop's garage and come to my garage in Puyallup. Or at least it should be by next Tuesday [October 31].

It still has a long list of projects to go, but it is now a good "driver" to say the least.

## In the News

**Trying to keep up with the Mustang news? Here are a few items to check out.**

From *Mustang Times*: (October Issue)

- **GT350R**—In 1965 these vehicles were originally built. Three of the original builders, referred to as the “Original Venice Crew,” have agreed to build them again. Just as in 1965, they will build 36 of them. They will start with 1965 K-Code Mustang donor cars and recondition/rebuild them to 1965 “competition” specs including featured designs for the ‘65 that were not used then because of time. They are starting production in fall of 2017.
- **2018 Good Neighbor Mode**—(“Quiet Start” or “Quiet Exhaust” Modes) - This will be a steering wheel mounted thumb control that allows you to start up the GT without “sharing the experience with the neighbors.” You will be able to schedule the time through a menu that has exhaust volumes of “normal,” “sport,” and “track.”
- **2018 Ford GT**—limited edition Heritage theme honoring GT40 MarkIV driven by Gurney/Hoyt in the 1967 LeMans victory coming soon.

### Looking for a Drive?

According to *American Road Magazine’s* Autumn 2017 issue there is a gorgeous drive just down the

road. Check out the McKenzie Highway in central Oregon. The route they describe goes from Eugene east on HWY126 toward Sisters and Redmond with a loop in the middle and from the photos, lots of tree lined, curvy roads for the Mustang to explore. Sights to see are Leaburg Dam and the Hatchery, Goodpasture Covered Bridge, Proxy Falls, the John Templeton Craig (lost postmaster) Grave, McKenzie Pass, Dee Wright Observatory and Sahali and Koosah Falls. Many of the names, **AR** says, come from an extinct “pidgin trade language” combining Chinook, Nootka, English, French, and other languages. Sahalie means “heaven or “high” and Koosah “named for the sky.” There are 2 Hotsprings, Belknap and Terwilliger, in which to soak your weary muscles and a beautiful McKenzie Bridge Ranger Station cut in the “Oregon Rustic” architectural style.

If you check it out, let me know.

**Keep sending me interesting news you have found.**

**Life is always an adventure.....**

**Enjoy the ride!**

Why do you love Mustangs and why do you think so many others do as well?

Drop me a note. Other club input welcome.

### Trivia Question:

We all know the sales #s for the 1st Mustangs:

- 1st day of release (April 17, 1964) - more than 22,000 Mustangs sold
- In first year—418,810 sold
- More than 1 million on the road within 1st 2 years

Legend has it that a Texan, afraid the car he just purchased would be sold from underneath him, slept in it at the dealer until his check cleared the next day.

Q—They weren’t just popular with the adults though. How many pedal powered Mustangs were sold by Christmas of 1964 for the young Mustang lovers?

# Information Article: Emergency Kits and More

By Heidi Geise

As we begin to see the storms roll in across our “neck of the woods,” we have to start thinking about being prepared for the emergencies that could happen and the driving conditions.

Lets start with the car emergency kit. You can go on [www.dmv.org/how-to-guides](http://www.dmv.org/how-to-guides) and search for emergency kits for a complete list. Here are a few of the suggestions:

- Roadside flares and triangle reflectors
- First-aid kit & Roadside emergency card
- Jumper cables
- 2 qts of oil & 1 gal. antifreeze
- Some rags and a funnel
- Extra fuses
- Phillips & flat head screwdrivers
- Adjustable wrench & vise grips
- Roll of duct take
- Roll of paper towels
- Flashlight with extra batteries
- Pocket knife
- Ice scraper
- Tire pressure gauge & inflater
- A blanket
- Bottled water / energy bars
- Work gloves or latex gloves
- Several black plastic garbage bags

These are just a few of the items. The pastic bags can be used as a makeshift rain coat, ground cover to kneel on, and then all the wet and dirty towels, gloves, etc can go in them until you are home safely.

AAA also recommends, in their Nov/Dec 2017 issue of ***Puget Sound Journey***, a shovel and some sand or kitty litter.

Ford has tips for driving in different weather conditions. One such condition is hail. Their first suggestion—stay home. They remind us that in some places those little hail stones can get pretty large. Although I have never seen some of those baseball size stones, I wouldn't want them hitting my car or me for that matter.

If you must go out or are already out when it hits,

they have these recommendations:

- Stay in the car
- Use low beams
- Pull over to a safe place away from poles and lights get and where car might not get hit with hail (if possible)
- Use emergency flashers
- Angle into the storm
- Cover yourself

There are other winter driving tips on Ford's site as well. Check them out.

Keeping your car in good running condition and fueled up is always a great place to start. According to AAA, winterizing your car is on top of the list. They remind us to have “oils, fluids, battery and windshield wiper blades inspected, and if necessary replaced.” Other recommendations from AAA are:

- Check the tires for proper inflation
- Monitor weather and traffic before going
- Watch speed, following distances, and don't use cruise control in wet / icy conditions
- Be prepared mentally for driving—rested and sober

We all know “Murphy's Law” that whatever bad will happen, will happen at the worst possible time. You will get a flat on a single lane road, in the middle of the night, and it will be pouring down rain.

Whatever the conditions, be safe. Take care of yourself and your car. Car show season is just around the corner!

## September Club Events

### Cruising with the Club:

### Mustangs Not Required, Enthusiasm Is!

#### Fall Cruise

October 15

Submitted by Charlene Rivera

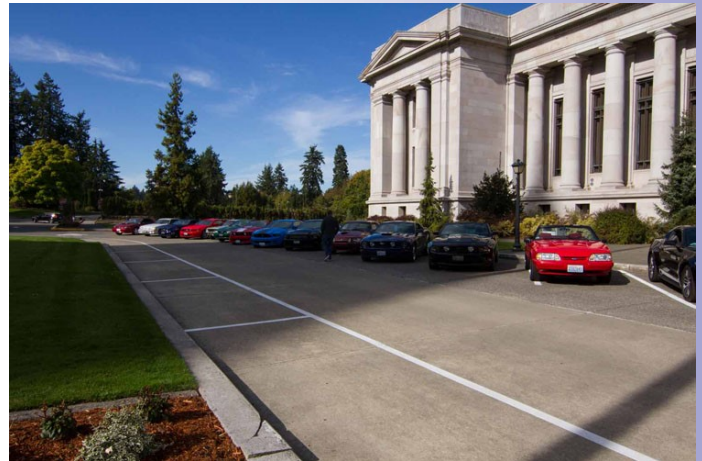

Last stop, Falls Terrace for lunch. They we're able to accommodate all 48 of us and we all had a great view of the falls and some yummy food.

After lunch a few of us explored the Falls Park and checked out the salmon hatchery.

What a great day for a Fall Cruise to Olympia!  
We had 30 Mustangs start the cruise at McDonald's.

First stop, Lattin's Cider Farm and Pumpkin Patch. If you have not tried a warm apple fritter and fresh apple cider, you need to visit here. We lost two Mustangs and their families in the pumpkin patch....I hope they found their way home.

Next stop, the Washington State Capitol, where we posed 28 Mustangs in front of the Supreme Court House. A few members explored the grounds and the Capitol Building and we waved to the Governor as we passed the mansion (not sure if he was home).

Thanks to all who joined us. Also, thanks to those who donated spaghetti fixings and crayons.

Can you say, none of the above? As is our tradition  
at EFN, there is always something new. This time it  
was "mixed soup stuff" as it was called, other-  
wise known as lentils  
and garbanzo beans.  
This was one of the eas-  
ier times, scoop-bag-  
scoop-bag-give to tapers  
-twist-tape-22 bags per box. Whew!

We had 14 club members and one non-member  
who joined us for a 2nd time (she knew what she  
was getting into). We were glad to have her help  
even though she doesn't own a Mustang....her last  
name is Ford. (no kidding)

We repackaged 4627 lbs of soup fixings and lis-  
tened to a variety of bean and pea jokes. It is al-  
ways a fun time for a worthy cause. I did notice that  
when we went to lunch afterwards, no one ordered  
soup!

We already have our dates for next year so check  
out the calendar when it is out and join us.

# 2018 Events Planning Meeting

October 28

Hey, Hey, Missy!!! Thank you for putting together our 2018 Planning Meeting. One of the most important tasks of a successful car club is to make sure that events are planned well in advance and well organized. The 20+ people we had at this meeting, put on their best thinking caps and Missy walked us through the challenging task of putting as many of the ideas as we could into the 2018 calendar.

This event calendar will be posted on the website and in the Newsletter in December giving

people a chance to confirm locations and make some of those necessary initial plans. A club calendar will be put together with some of this year's fun events and the events planned for next

year so that everyone can prepare for all of the 2018 action.

These events and the clubs active participation in them is one of the things that make this club fun and well functioning.

Thanks Missy! Thanks all who helped plan and / or contributed ideas! And thanks to all of you in advance for being involved and making them a success!

## Cruise Etiquette Reminders

As we wind down our cruising season, just a few reminders about etiquette so we continue to enjoy safe and fun driving events:

1. Cruising is a cruise, not a race. There are no points for finishing 1st.
2. Printed directions are provided for each cruise so if cars get separated you can find your way to the next stop.
3. Obey all posted speed limits.
4. Try not to hold up traffic. This means at times you will need to make room for other vehicles to pass or travel in the same direction.
5. In order to stay as visible as possible both to other drivers and to our own, drive with your headlights on.
6. Enjoy the ride!

## Puyallup & Sumner Santa Parade 2017

The paperwork will be submitted November 9th so, if you're like me, you can't wait for Saturday, **December 2nd** to arrive. What a fun day the Santa parade is.

You must have at least 100 lights on your car to enter.

I just want to let everyone know that the cool little suction cups used last year are at Lowes and Home Depot. They also have abundant supplies of LED lights in assorted strings of 50 & 100 lights in colors or all white. Remember to power these you will need an AC inverter to plug into your car's lighter or AC adapter outlet.

As soon as I receive the information from the Puyallup Downtown Association & the Sumner Main Street Association with staging directions, I'll get them out via email.
