oday is a great day! The crocuses are popping up, the tulips are starting to show, the birds are singing away, and more and more Mustangs are revving their engines anxious for the sun and the open road.

It was a productive month for the club. On the membership page you will see that the "Mission Statement" has been changed to a "Purpose Statement" and it reflects the wording in the By-Laws and our club activities. We are in the process of doing the same for the Application Brochure. The By-Laws have been reviewed and found to be aligned with what our club is doing. The financial books have been given a thorough look at by a second club person for an internal auditing which we are hoping becomes an annual process and has resulted in a few simplifications. All is well, so now to the fun!

We have had 2 cruises already, one for food and coffee and the other for food and chocolate. What more could a Mustang person ask for? Besides, the food, coffee, and chocolate are the staples of Washington living aren't they?

There are additional events in the works, some of which you will see in this newsletter. We will be certifying members for CPR, 1st Aid, and AED use. See the details on page 3. Some interest has been shown in a visit to Wicked Fabrications, a custom hot rod builder in Auburn. Very cool stuff. So we have a volunteer (my husband) working to make that happen.

As always, there are special events such as the Daffodil Parade that we are looking for volunteers to drive in. We are well underway in the preparation/ planning for our own car show in August so talk with Charlene for the opportunities just waiting for your skills and expertise.

This club is not one for sitting around. As you know, or if you are new will soon find out, there is always something to do and someplace to go eat. Watch the calendar and flyers in this newsletter for upcoming events. Poker Run in March, National Mustang Day in April and a 3 F-Cruise: Falls, Feudal, Farms in May. Let the fun continue.

By the way, congratulations! We currently have almost as many members as we had all of last year. With only 5 new members it means we have a lot returning. That is always a good sign. Thanks for making people feel welcome and cared about.

*Life is always an adventure.....*

*Let's enjoy the ride together*

*Heidi Geise*

## Mustang of the Month

Greg, Karen, & Matt Robbins  
2011 Red Coupe

As some of you know, writing is not one of my favorite things (Heidi, Missy, Charlene). It was the only part of the President's job that I didn't like and alas procrastinated until the very last second. So when I found out I was selected as Mustang of the Month just one month after not having to write an article for the newsletter, I

once again procrastinated until the last second.

Now I am sitting at work on a Sunday afternoon trying to think of something to say. So I think I will just say  
**THANK YOU.**

The photos I chose to show are all from Hiking adventures over the past two years. West-

ern Washington has some of the most beautiful scenery and if you are able, I suggest you take the Mustang and head for a trailhead somewhere and explore.

Looking forward to another fun year.

Greg Robbins and Family

Greg, congratulations on receiving the 2018 Civilian of the Year Award!

## In the News

***Trying to keep up with Mustang news? Here are a few items to check out.***

From the ***Mustang Times***:

All of those DIYers out there, here is a new website, [www.partskeeper.com](http://www.partskeeper.com). It is a site for enthusiasts to manage, track, and share auto parts. You can filter for your specific year and make. It helps you find part numbers, prices, images, specs, and purchase links. Just keep my husband away from it.

A new book is out, Ford Cleveland:335-Series V8 Engine 1970 to 1982. According to the ***Mustang Times*** it covers "design and production history, engine assembly plants, racing preparation and history in NASCAR and Pro Stock drag racing." If this is of interest to you, check it out and let us know how it is.

There is also an interesting article about the future of cars and driving in John Clor's section. Bob Lutz provides his view of where we will all be as far as automobiles go in 20 years. Will we be driving or just riding? Will we even own a car?

# Information Article: Where It All Began...Maybe

By Heidi Geise

Thank goodness for the internet...right? I plugged in “when was the first car show in the United States” and up pops Nov. 3, 1900 in New York at

Madison Square Garden put on by the Automobile Club of America.

According to wired.com this wasn't actually the first but considered to be the “Grandmother” or the 1st “modern automobile show.” The cost was 50 cents (\$13 today) and there were demonstrations of amazing “automobile feats such as braking and acceleration” and hill climbing. According to this source, none of the automobiles on display this day are in business today. That must mean that Ford wasn't there.

The New York International Auto Show website provides a timeline. At the 1900 Automobile Club of America's show there were “sixty-nine exhibitors displaying approximately 160 complete vehicles.”

These types of shows were probably the start of what we know today to be the expos. The shows where we get to go and drool over the latest models and see what may be coming in the future.

I dug a little deeper to find some of the oldest concours d'elegance shows. These are the “competitions of elegance” shows. Those amazing cars of the past that some lucky people have restored to perfection and brought out for

the rest of us to see. One of the oldest that I could find was Pebble Beach that started in 1950. Maybe before that those old cars were just the “daily drivers.” In our own neck of the woods, Forest Grove, Oregon has had a concours for 46 years.

Try as I might, I couldn't find the history of the shows we are all so familiar with, the Show-n-Shine. Here is my guess. Someone got a new car, year ???? and everyone took to the road to check it out. And if you got one, mine is just as nice or better, and it came out as well. Pretty soon we had a dirt road full of cars and people looking to see what features everyone had on their cars and the Show-N-Shine began. Now I don't know if that is how it happened but it wouldn't surprise me.

So however it started, the time is upon us now. So get out there and clean 'em and polish 'em and add the bling. Let's be proud of our cars, drool over those of other car owners, drink our coffee, and eat our hot dogs. Put the money down to enter some raffles and talk cars and cruises with our **fellow Mustang friends**.

See you on the road....don't forget to wave!

**ABOUT NOAH'S PET PROJECT—**

"Our mission is to provide preventative and/or occasional health care for pets of low income and elderly residents of Tacoma and Pierce County; help control pet overpopulation and provide education to our clients. Noah's Pet Project began as an part of St. Leo's Catholic Church's Outreach Ministry Program in 1998. We are now a Public Charity under IRS Guidelines. We are a non-profit clinic run completely by volunteers. Our budget is completely dependent on donations. Area veterinarians, pet supply stores and individuals are generous in their support. We purchase only the most basic of supplies, vaccines, antibiotics and flea protection."
