Don't you just love Fall? Colors are gorgeous! The air is crisp! And for a few weeks we don't mind some rain now and again.

With October comes the conclusion of most of the car shows, although I must say that any time one of our many Pacific Northwest Clubs are out and about it is a show. Don't you agree? And boy, I have seen some beauties this season.

I would start naming them but there are too many. Just let it be said that they have come in all colors, all years, all models, all specialty classes. Maybe a highlight for me was the 2018 Ford GT in "Gotta Have It Green" that I saw in Canada only because it is so rare for me to see one in person.

I felt that it was my "duty" this season, as president and in the name of research for the newsletter, to drive/ride in a variety of "stangs." So we drove a 2018 GT—nice ride with it's 10 speed automatic and a 2018 Saaleen with it's 740 hp. Sometimes you just need that extra "vroom" to get the best parking spot at Fred Meyer. Roush, Shelby, Ecoboost, you are next on my list.

If you combine the great fall colors and the "vroom-vroom" of our favorite cars you get the perfect time to drive those wonderful backroads of our area. Invite a few friends and you have a club "unofficial" cruise and a fantastic day. Just know that if I am one on the trip with you, there may be a few photo stops.

Don't forget the "official" cruises for our club this next month:

- Old Spaghetti Factory Fund Raiser
- Tacoma Glass Blowing
- FNDO—The Hub
- Treasure Hunt
- AND GET THOSE SURVEYS IN!

Life is always an adventure.....

Let's enjoy the ride together

What I “FLAT OUT” Learned!

Submitted by Heidi & Paul Geise

Well!!! I learn a lot everyday. It is one of my goals that I learn something new each day. So it shouldn't have been a surprise to me one Monday morning as I was on my way to volunteer at America's Car Museum that I would have this learning experience. I wasn't expecting it so early, so dramatically, or so expensively however.

I am not far from the exit for ACM when I feel a strange bump, hear an unusual pop, and see my dash read low pressure. Several thoughts run through my mind. I won't lie....some I can't print in this newsletter. But what I can print:

1. Do I pull over on the freeway? Of course with road construction in the area the shoulder is closed. There might have been more bad thoughts at this point. Can I make it into the museum? I am going to try as that seems safer. (Much smarter idea than I thought as it turns out. Keep reading.) **Learning—If it isn't safe to pull over, drive on the wheel.**
2. Call my “super hero” - Paul. “Honey, you are not going to believe this but....Let me get out and assess the damage.....side wall is split.....”

Of course this is the day the Cruise Line comes into Tacoma and 2 groups are coming into ACM. No problem.

This is where Paul enters the picture.

1. *#!% the tool broke off trying to get the lug nuts off because there is a plastic coating that swells with the dirt so the proper lug wrench has to be pounded on and then carefully removed. **Learning—Check for the coating on yours. If it is there, change your lug nuts!**
2. After a trip to buy a new tool, check out the internet to see what is going on, come back to ACM, remove the lug nuts with much “difficulty” and not a little.....well more unprintable thoughts, the tire is ready to take for repair.

Oh, did we mention that AAA wouldn't come help because Paul wasn't in the car with me when it happened. **Lesson—put both names on the AAA registration or learn to take care of it yourself or tell them he was there.**

Oh, yeah! Many newer cars only have a can of Fix-It with no spare. Not much help with a blow out. **Learning—Get a spare tire!**

In the News and Other Information

Trying to keep up with Mustang news? Here are a few items to check out.

In the September **Mustang Times**:

- Did you see our own Bill Norman's car on the cover this last month and then again inside?
- There is a Mustang Owner's Museum update that includes photos and an opening date of April 17, 2019. (Why does that date seem so familiar? Oh yes!)
- They are still looking for "My Mustang" submissions. Do you have a story to tell and photos to include?
- And of course a lengthy article about the changes at Ford that should make us all stop and think. By the way, our club is connected, (thank you Charlene) to Ford Per-

formance on Ford Performance Club Connect and will soon be on MotionU as well.

Mustang Facts and History from Georgia on My Mind National Mustang Show:

- "The tachometer on the 1965 GT350R-model Shelby was turned sideways due to an interference behind the dash."

Random Acts of Kindness!

I don't know the names and that is part of the beauty. We recently went to LeDuc, Alberta, Canada for an International Mustang Meet. The rain and wind were awful coming into the show on Thursday. The day of the show (Saturday), there were over 400 cars and the wind was so bad there was concern that hoods would fly off. (I think one might have had some damage.)

In spite of the initial weather, the people (and cars) were fabulous and incredibly friendly. People were sharing towels. Someone handed us a "water magnet" to dry the car and we shared a car squeegee to help someone else. Hoods were being put down and held on with a variety of hand made devises. Everyone with smiles and a kind word.

I may not remember all the names, but I will remember the faces and kindness!

My Trip to Yakima by Lilyanna Rivera with help from my grandma

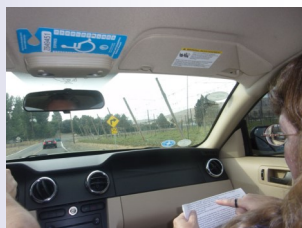

Sept 16

Article and photo selection by Lilyanna

Photos by Nancy Freeman and others

My grandma and Gpa kidnapped me from school. We went to Yakima with Ms. Joanie and Mr. Rick. It was a long drive in the middle of nowhere - through the desert where rattle snakes live. Mr. Rick and Gpa took a wrong turn on a one-way road, grandma, Ms. Joanie and I didn't follow them.

We stayed at the Red Lion. Our room had a back door that went out to a yard with a gazebo, swimming pool, and awesome climbing tree. The first night Ms. Joanie, grandma and I went swimming. Gpa and Mr. Rick brought us dinner from Miner's - it was really good and we ate in our backyard.

The second day we had breakfast at the hotel. After breakfast, we met a lot of other Mustangers for a cruise. We drove around the Yakima area to an old mission. I found a treasure stick.

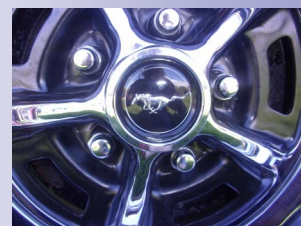

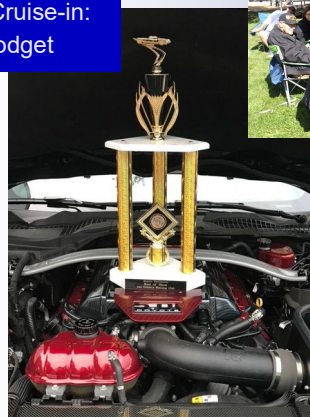

After the cruise Ms. Joanie, Grandma and I went to fruit stands and found lots of yummy fruit. Gpa and Mr. Rick went to see VW Bug Races at the drag strip. Later that night we all went to a cruise-in - I got a yummy banana shake and won a raffle prize - a road atlas and candy. There were 4 cobra snake cars. We had dinner at Bob's, the steak was so good. Sunday we went to the Mustang car show. Ms. Joanie made me a little tent to hang out and hide in. I played on the toys and GPa and I explored the park.

There were lots of pretty Mustangs. There were 8 cobra snake cars. My favorite Mustang was the blue cobra snake one - GPa said it was a Shelby GT 350 Electric Blue....but I still say it is a cobra snake Mustang.

We did it again! Club Participation award goes to Pierce County Mustang Club with 21 cars at the show in Lacey.

Wicked Fabrications

Sept 29

Organized and Submitted by Paul & Heidi Geise

Great turn-out on a gorgeous fall day. About 15-20 friends in 11 cars showed up to drool over some beautiful artwork at Wicked Fabrications. Brandon from Wicked Fabrications opened up just for us and let us all ooh and aw over some amazing work and even brought donuts and coffee.

We even got a special treat as one of their customers happens to be Byron Tudor who is a member of our club. He opened up a second location and we

got to see Byron's freshly completed Mustang. Beautiful car all stock looking on the outside in all its glorious 1967 Wimbledon White but not so much on the inside with it's Coyote engine and then some. If you looked closely under the dash.....Wiley finally caught the Roadrunner!

After viewing and asking questions and picking up

our jaws, we took a short cruise to.....where else, lunch. This day served at Pick-Quick in Auburn. True to it's name, quick and tasty and yummy shakes.

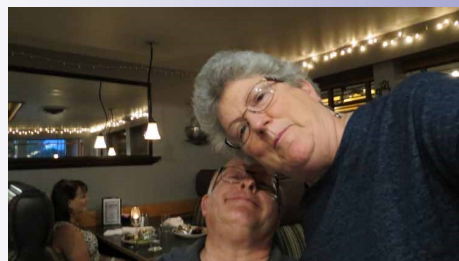

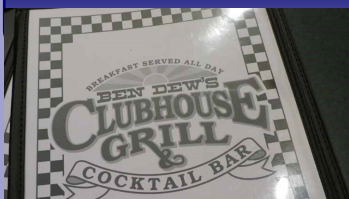

As always—good friends, good fun, and good food.

And this is just a piece of the equipment!

Puyallup & Sumner Santa Parade 2018

The paperwork will be submitted November 9th so, if you're like me, you can't wait for Saturday, December 1st to arrive. What a fun day the Santa parade is.

You must have at least 100 lights on your car to enter.

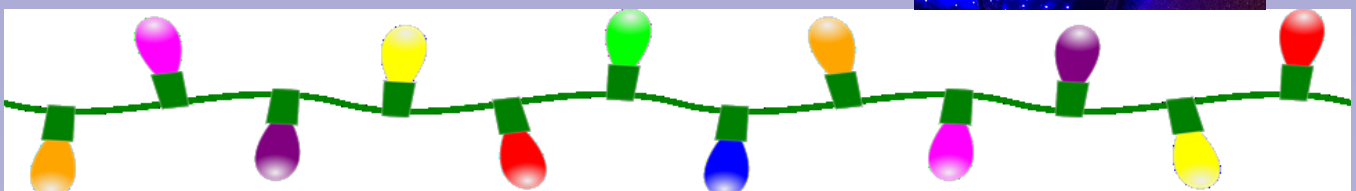

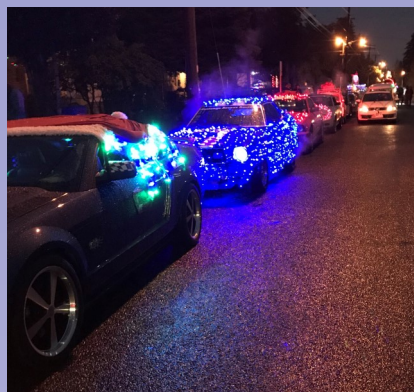

I just want to let everyone know that the cool little suction cups used last year are at Lowes and Home Depot. They also have abundant supplies of LED lights in assorted strings of 50 & 100 lights in colors or all white. Remember to power these you will need an AC inverter to plug into your car's lighter or AC adapter outlet.

As soon as I receive the information from the Puyallup Downtown Association & the Sumner Main Street Association with staging directions, I'll get them out via email.

Anyone interested please contact Missy with a photo of your WA DL and POI
