

# In Memory and Celebration of George Ftikas

It was a beautiful day and a beautiful turn out of beautiful cars to send the love to George Ftikas, one of our club members. There were about 20 cars from our club but over 40 Mustangs, Corvettes, an SUV, and a couple of

trucks that spanned several car clubs.

George was at the window as everyone drove by waving at a strong and courageous man and his family.

I don't know if the neighbors knew what was happening but I was asked at one point if we were having a car show. No, a "show of support" for a fellow car enthusiast.

Thank you to all that organized the drive and to all those that showed up Sunday at South Hill Mall to begin our drive and those that tagged in along the way.

George passed away Friday, Jan. 22, just a short time after this cruise. He was a great Mustang enthusiast and friend/member of our club. As of this writing, no service details have been shared. Our thoughts are with George and his family.

George driving us at ACM.

Our Mustang family lost a brother yesterday. **George Ftikas** was well-known among Mustang II owners in particular, thanks to his wonderful personality...and his incredible car, which he named "Unbridled Fury." The car was so cool it partly inspired the title of my upcoming Mustang history book. Rest In Peace, George. Thank you for your service to our country and your contributions to our hobby.
